## A NERVOUS WRECK

From Three Years' Suffering. Says Cardui Made Her Well.

Texas City, Tex.—In an interesting statement, Mrs. G. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work.

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep, I became a nervous wreck just from the awful suffering with my head.

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent, for I have never had any headache since taking Cardui.

Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients recommended in medical books as being of benefit in female troubles, and 40 years of use has proven that the books are right. Begin taking Cardui today.

## RABBIT COMMITS SUICIDE

STRIKES ITS HEAD AGAINST THE TIRE OF A BUGGY WHILE BEING CHASED BY DOGS.

Several dogs that attended the Liberty Bond speaking at Shiloh church Sunday afternoon raised a rabbit in the woods near by and it came running across the lot and found temporary concealment under the church. One of the smaller dogs followed it under the building and the frightened rabbit came out and started for a back fence with three dogs in hot pursuit. The job of watching all dogs at once was too much and the little animal ran against the tire of a buggy near the fence. Its head struck the iron full force and the rabbit bounded high in the air and fell dead.

Two of the dogs ran over the prostrate rabbit but the third stopped and ferocious manner, though it never moved after striking. The meeting had not started and a large crowd in the church yard saw the involuntary suicide.

## LEFT TWO PRISONERS.

Germans attempted a raid on American positions near Toul, but were driven off by artillery and machine gun fire, leaving two prisoners in the hands of the Americans.

## BRIDE ABANDONED

HARRY KING WEDS A BEAUTIFUL YOUNG WIDOW AND SHIPS THE SAME DAY.

Mrs. Helen O'Rear Saufley, widow of a young aviator, Ensign Caswell Saufley, killed two years ago, was married Thursday to Harry King, a wealthy young man of Louisville. Following the wedding and upon their arrival in Louisville, King was induced by his brother, Lieut. A. C. King, to take a hasty leave for Chicago the same night. His wife remained in Louisville till Friday and then returned to Frankfort where her parents live. The King family violently oppose the wedding upon the ground that the boy is only 20 and his wife 27 and claim that a raise statement made by the groom as to his age makes the marriage null. King is being urged to enlist in the Navy. His bride is a daughter of Judge E. C. O'Rear and is noted for her beauty.

## Great Wheat Stocks Isolated.

It's the shortage in ships that is putting the Allies and the United States on wheat rations. Great stocks of wheat are isolated in India, and Australia. At great sacrifice in ship space and use the Allies are forced to secure some wheat from Argentina.

On January 1, Australia had stored 100,000,000 bushels of wheat that was ready for export—but there were no ships. Then came the new crop with an exportable surplus of 80,000,000 bushels. Now Australia has approximately 180,000,000 bushels waiting for ships.

India, at the same time, had 70,000,000 bushels of wheat stored for export. During April 50,000,000 bushels more out of the new crop will be added to the pile.

Argentina closed the last shipping season with 11,000,000 bushels of wheat left in the stock available for export. The new crop will add 135,000,000 to the left over.

It is not a problem that the wheat does not exist in the world—it is entirely a problem of shipping, which has thrown on America the obligation of dividing our stock with the Allies.

## ALLIED FOOD SHIPMENTS REACH LARGE TOTAL

A general idea of the quantity of food sent to European allies by the United States from July 1, 1914, to January 1, 1918, is given by figures just announced by the U. S. Food Administration. In that period the United States has furnished complete yearly rations for 57,100,983 people. In addition there was enough extra protein to supply this portion of the diet for 22,194,570 additional men.

The total export of wheat and wheat flour to the three principal allies is equivalent to about 384,000,000 bushels. Pork exports for the 3 1/2 years amounted to almost 2,000,000,000 pounds. Exports of fresh beef totaled 443,484,400 pounds. The amount of food exported to Russia is negligible compared with that sent to the western allies.

R. P. Prager, the Pro-German lynched at Collinsville, Ill., was an ex-convict from Indiana. He was a coal miner, spoke only broken English and his picture shows that he had but one eye.
